ABOUT THE UNIVERSITY

University Overview: Gansu Medical College, located in Pingliang City, Gansu Province, China, is a public medical institution with a long-standing history in medical education. Established in 1958 as the Pingliang District Health School, the college underwent significant development over the decades. It was upgraded to Pingliang Medical College in 2003 and received formal approval from the Ministry of Education of China in 2015 to become a full-fledged medical college. This recognition solidified its status as a government-approved, full-time undergraduate medical institution, offering structured and quality-driven medical training. The college is situated in a culturally rich region near Kongtongshan, known as the birthplace...
