ABOUT THE UNIVERSITY

Overview The University of Georgia is a public institution located in Georgia. For Indian students pursuing a medical career, the university offers a medical program with a duration of 6 years. The medium of instruction is English, which removes the immediate need for students to learn a local language to keep up with their academic curriculum. Recognition & FMGE For Indian students, the most critical aspect of studying abroad is the ability to return and practice in India. To do this, all graduates from foreign medical universities must clear the Foreign Medical Graduate Examination (FMGE) conducted by the National Medical Commission (NMC). It is important for aspirants to note that the University of Georgia is currently not NMC approved....
